

Nancy Jean Oswald Clements

January 19, 1960 – July 11, 2013

Pictured above; Nancy Clements, 2006-07 Triangle Chapter President

Mrs. Nancy Jean Oswald Clements, our 2006-07 Triangle Chapter President passed away on Thursday, July 11, 2013.

Nancy and the Triangle Chapter received the 'Most Improved Chapter' award at the 2007 Region IV CRC in Charleston, SC. This was a great year for our chapter. It was the beginning of a great run for our chapter which has seen us take home more regional awards than during any era in the chapter's history. She created the first triangle chapter website which is the foundation of the website used today. Nancy also began the distribution of golf shirts with the ASHRAE Triangle Chapter logo to chapter members to raise an awareness of ASHRAE in the industry. She also was successful for many years in raising money for ASHRAE research and set the bar high for what is expected in research funding annually from the chapter. Her contributions to the chapter's growth are too numerous to mention. Nancy elevated our chapter and is the foundation of its current strength. We continue to reap the benefits of Nancy's efforts.

We recognize Nancy not only as an exceptional ASHRAE leader, but also a valuable asset to the field of engineering. She is our example and friend. She will be greatly missed.
