Professional Summary

Being only 24 years of age I have a lot more experience than many people my age per say. My adaptive learning and dedication skills have been mentioned by many of mentors throughout the years. I am always willing to take my knowledge further as I continue to grow, and apply my knowledge to complete the tasks ahead of me. My skills such as mechanical skills will help the company and I along the way.

Skills

- Mechanical
- Critical Thinking
- Complex Problem Solving
- Time Management
- Active Learning
- English Language
- Coordination
- Judgment and Decision Making
- Troubleshooting

Experience

Freight Team
Home Depot

Feb 2017 -Present
Garner, NC

As a freight team member for Home Depot, I handle merchandise coming into the store and stock up the merchandise we receive. I also put up excess merchandise via reach truck which is essentially a smaller fork lift. This job has taught me a lot about the retail industry and customer relationship, keeping them coming back by being of the best help I can be.

Machinists Mate
United States Navy

Jun 2012 -Jun 2016
Pearl Harbor, HI

My responsibilities as a machinist mate in the USN primarily included maintenance work on equipment such as steering gear machinery and anchor for the ship I worked on, the USS Halsey. My secondary responsibilities included training of my junior sailors, upkeep of our four A/C units such as cleaning strainers, starting and stopping, and flushing the system. Being in the Navy has taught me many things but above all it has taught me quality work and time management is quintessential.

Education

High School Diploma
Niceville High School

Niceville, FL
May 2012

Associate of Applied Science: HVAC
Wake Technical Community College

Raleigh, NC

I'm still in this program at Wake Tech, my projected graduation date in march of 2019.
